

FOIA-9467 dated 17 June 1954 (\*LEVITSKY - Alpha)  
11738 was mentioned as a contact of Boris LEVITSKY's in FULL 6100.

He was also the subject of a trace request which the British passed to Zipper. Zipper replied, in April 1954, that he joined Zipper in September 1948, ceased full-time work in 1950 and since has been active only off and on, peripherally. To an unknown British query, Zipper replied " Nach unseren Feststellungen ist an dem Geruecht ueber HERRJA nichts wares. Dazu war die Taetigkeit von Dr. Os-R im SD zu kurz und unbedeutend." POB will try to determine what this means.
